**Itemise and value your goods. Use the table below**

When estimating the value of your goods, if you have selected Replacement Cost basis of settlement, ensure that you estimate the cost of new goods of similar type. If travelling overseas remember to check the values at your destination to ensure your declared values are adequate to cover their replacement value. If you have selected Market Value, estimate the replacement value less a reasonable allowance for age, condition, wear and tear and depreciation.

Please note that under this option, vehicles, caravans, boats, trailers, computers, computer accessories and clothing can only be insured for their market value as detailed in the policy wording. Vehicles, caravans, boats and trailers must also be specifically declared and valued on the declaration.

To assist you, in the table below, we have inserted approximate replacement values of items in a typical home. These typical values should be used as a guide only. They have been expressed in Australian Dollars (A\$). You should carefully consider if these values are sufficient for your needs. Please insert your estimated values to ensure you are fully protected under the Basis of Settlement Option selected by you.

Remember that if you underestimate the value by less than 80%, the amount of your claim may be reduced in accordance with the policy Co-Insurance clause.

This insurance policy will ONLY cover the items nominated by you.

Owner Packed cartons are covered up to a maximum amount of A\$500 per carton. If the value of a carton is greater than A\$500 and you wish to increase this value, you must provide an itemised list of the contents of each carton and give this to the Removal Company prior to the uplift of the goods.
